

Community Development

Emmanuel Foundation is committed to

Sustainable Development

We are involved in such projects as safe water for widows and orphans in Rwanda, reconstruction of an orphanage destroyed in the Haiti earthquake, and the construction of a school, clinic and rain harvesting system in Kenya.

Play It Forward!

Emmanuel Foundation has installed over 40 playgrounds in 16 different countries where children had little or no access to developmental play! EF gathers and refurbishes municipal playground equipment destined for the landfill. They are then shipped and reinstalled in developing nations where they not only serve the wellbeing of the child but also strengthen community development.

Distribution Center

Emmanuel Foundation collects and distributes goods that aid in sustainable transformation of a community. This includes such resources as medical equipment for hospitals, dental and health clinics. We ship educational supplies to strengthen schools, as well as clothing for the poor, orphanages and relief areas. Over 20 containers of support for development are shipped each year!

Supporting Community Transformation
Change a life – Impact a Community

Sponsor

- A Container Shipment
- A Playground Project
- A Development Project
- A Household Water Filter

Volunteer

- Load a container
- Pick up goods
- Donate or pack clothing
- Assist in warehouse

Thank you for making a world of difference!
